

RELIABLE WATER CHEMISTRY CONTROL

BECSys3

- Versatile** Suitable for pools, spas, water parks, fountains, zoos and aquariums
- Efficient** Reduces chemical usage, improves water quality and assures compliance
- Expandable** Enhance with data logging, remote access and free chlorine (ppm) sensor reading
- Complete** Standard configuration includes sensors, flow cell and advanced control algorithms
- Safe** Standard safety features include flow switch, flow restored delay, feed limit timers and visual alarm indicator

- Secure** Multi-level password-protection for peace of mind
- Reliable** 5 year electronics / 2 year sensor warranty provides worry-free operation
- Easy-to-use** One-touch Set Point and Calibration access, and a simple menu system for advanced features
- Supported** Factory-trained service and support

BECSys3

RELIABLE WATER CHEMISTRY CONTROL

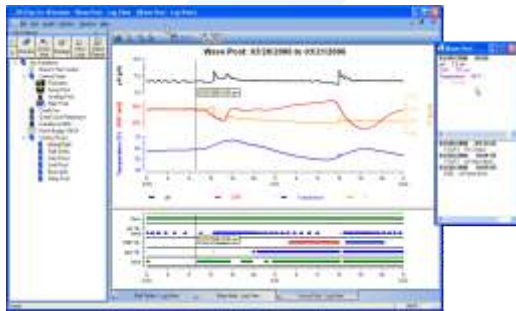

A Long History of Reliability

- The BECSys3 design has been controlling pools for over a decade
- 5-year electronics warranty
- Fully isolated pH and ORP readings
- Factory-trained service and support

Free Chlorine Reading

- High quality membrane sensor
- Long life, with replenishable electrolyte
- 0.0 - 20.0 ppm sensing range

Monitor and Analyze

- BECSys for Windows included with BECSysRCM
- Windows 7 compatible PC software
- Intuitive Graphical Analysis Tools
- Full read/write access to all parameters

Stay Connected!

- Optional integral 100BaseT Ethernet
- USB flash drive data log retrieval
- Trace and Event Data log storage
- Email and text message alarm notifications

Product Certifications

- NSF Certified to NSF/ANSI Standard 50
- ANSI/UL 61010-1 (ETL Listed)
- CAN/CSA C22-2 #61010-1 (ETL Listed)
- CE: EN 61010-1, EN 61326

About BECS Technology

BECS Technology, Inc. has been designing and manufacturing the industry's most reliable and innovative water chemistry controllers for over 20 years. All systems are designed and manufactured in-house at our facility in St. Louis, Missouri. Visit us online at www.becs.com.

Designed and Manufactured in the USA by:

BECS Technology, Inc.

9487 Dielman Rock Island Industrial Drive

Saint Louis, Missouri 63132 USA

Advanced Sensor Technology

- State of the art design
- Inorganic electrolyte (32ml)
- 2-year warranty
